State Education Agency

Overview of Web Content for The Lexile Framework® for Reading

Many state education agencies decide to create a specific place on their websites to inform teachers, parents and others about The Lexile Framework. This website is usually where the state places information about its performance standards expressed in Lexile measures after the linking study is complete. The site's URL often is included on the state's customized Lexile® map as a way to educate teachers and others about the new Lexile resources that are available to them.

Three outstanding examples of Lexile content on state education agency websites are:
- Arizona (www.ade.az.gov/azreads/lexile/)
- Virginia (www.doe.virginia.gov/info_centers/sol/lexile/index.shtml)
- Georgia (http://www.doe.k12.ga.us/lexile.aspx and https://www.georgiastandards.org/Resources/Pages/Tools/LexileFrameworkforReading.aspx)

We suggest that you review these websites for excellent ideas when designing your own site. MetaMetrics can assist you by providing logos and other related images.

The following menus outline useful options for links to Lexile resources for educators and parents that can be added to your state education agency Lexile website. Your agency may use any of the text from these pages, including the Frequently Asked Questions (FAQs).

Options for Lexile Web Resources for Educators

- Lexile Map: Post your customized state Lexile map (or link to the standard Lexile map: http://www.lexile.com/tools/lexile-map/)
- Lexile Codes: http://www.lexile.com/about-lexile/lexile-codes/
- Fact Sheets and other informational resources: http://www.lexile.com/resources/
- White Papers: http://www.lexile.com/about-lexile/white-papers/
- Case Studies http://www.lexile.com/about-lexile/case-studies/
- Frequently Asked Questions (FAQs): http://www.lexile.com/faq/
- Lexile Measures at School: http://www.lexile.com/using-lexile/lexile-at-school/
- Professional Development: http://www.lexile.com/pd/professional-development-overview/
- Conferences and Presentations: http://www.lexile.com/newsevents/events/
